Dear

I wish we could have been of assistance to you in your attempts to locate your friend in Iran, however, as you note, the timing for this is not good.

On the other hand, I do appreciate the assistance you will be providing to our people. This information will be most appreciated.

In regard to Agency employment, I have sent your resume to our personnel office with a note asking that they determine if there is need in our organization for your considerable background.

Thank you for your help.

Yours,
